

Get It Right the First Time With Ecotime Time and Attendance

Stop spending hours making tedious adjustments to your employees' time and attendance data.

With Ecotime by HBS, the entire process can be streamlined – saving you precious time previously spent sorting records, making alterations, and ensuring FMLA compliance. Ecotime has the capability to handle complex workflows with features that other time and attendance systems simply can't offer. With experience in the healthcare, education, government, and oil and gas sectors, along with many other industries, you can trust Ecotime to simplify your time and attendance processes and help you get payroll in on time, every time.

What Sets Ecotime Time and Attendance Apart

Handling Complexity

Do you have requirements that other vendors can't meet? Take a look at Ecotime by HBS. We built the system with the flexibility to handle even the most complex policies and workflows. This is what sets Ecotime apart from the competition.

Flexibility

When it comes to time and attendance management, especially in specialized industries such as healthcare, education, government, and oil and gas, you need a solution that's highly configurable. Ecotime adjusts to your unique business needs, not the other way around.

Customer Service

Our US-based experts are knowledgeable in your specific business operations. You can have the peace of mind that you're always just a phone call or email away from getting all your questions answered.

Industries Served

Ecotime services all industries, but we specialize in the following:

Healthcare

Education

Government

Energy

And More!

What We Offer

Ecotime has cloud-based solutions to **simplify** your time and attendance processes and can adapt to changing policies and regulations.

Ecotime for Employees and Managers

Give employees and managers autonomy when it comes to time and attendance management and tracking. Benefit from increased accuracy, centralized management, and automated notifications.

Time Clocks

Get the flexibility to log in using convenient and secure methods such as magnetic swipe, proximity, or biometric identity authentication on our employee time clocks. We offer electronic and web time clocks to streamline your timekeeping.

Ecotime Admin

Administrators can have the flexibility to configure Ecotime to their own business's workflows and processes. When new regulations go into effect, Ecotime will easily adapt to them, saving you valuable time.

FMLA

Ecotime features an FMLA software module that simplifies leave approval and document submission processes, so staying compliant with state and federal regulations is easier than ever.

Time and Attendance That **Grows With You**

Ecotime can grow with your business and handle the complexities that come with your specific industry. Our system can address challenges and your unique needs down to the last detail, ensuring that you never have to compromise the functionality of your business workflows. In addition, our knowledgeable, U.S.-based customer support team is ready to offer assistance whenever you need it.
